

Weaver House Grounds Improvements (updated 01.17.11)

Since completion of restoration work at the Weaver house including work on the site to provide vehicle and barrier free access in 2006, a goal for Ottawa County Parks has been to develop more of the house grounds into an area suitable for outdoor gatherings and events. Planning is underway to add garden plantings, a ceremonial space suitable for weddings or other special events, and an area designed to accommodate rental tents. Funding is in place although no start or completion dates have been determined.
